

Academic Year 2017 - 2018

***Call for applications for the  
Laurea Magistrale Degree/Master's Degree (second cycle) in  
BIOMEDICAL ENGINEERING  
(LM-21 – Class of second cycle degrees in Biomedical Engineering)  
Taught in English***

*Department of ENGINEERING*

**Summary**

Art. 1 - Introduction .....	2
Art. 2 - Places available to non-UE citizens residing abroad.....	2
Art. 3 - Candidates with foreign qualifications .....	2
Art. 4 - Admission requirements.....	3
Art. 5 - Application .....	3
Art. 6 - Admission results .....	4
Art. 7 - Enrollment .....	4
Art. 8 – Transfer, change of study programme, recognition of previous qualification (shortened programme)5	
Art. 9. Part-time students .....	7
Art. 10. Tuition fees.....	7
Art. 11. Study grants, housing, university canteens and other subsidies .....	8
Art. 12 - Institutional e-mail.....	8
Art. 13-Informative report according to art. 13 of Legislative Decree 30/06/2003 n. 196 .....	8
Art. 14 - Responsible for the administrative procedure .....	10
Art. 15. Contacts .....	10

## Art. 1 - Introduction

---

This call contains the admission rules to the Master's Degree in Biomedical Engineering (taught in English) for the Academic Year 2017-2018.

Admission to the degree course requires the assessment of candidates' curricular requirements, as specified at article 4.

The application process is open to both graduates and graduating students. The latter ones can enroll during the academic year once they obtain the qualification required, within the deadline specified at article 7.

The definitive admission is subject to the results of controls on self-certifications and admission degrees, which can take place even after the enrollment.

The institutional Roma Tre University website is the **only** official publication for all information related to administrative procedures. All instructions on procedures described in this announcement are published on the webpage <http://portalestudente.uniroma3.it/istruzioni/>.

The university will inform in good time of any changes in dates and procedures through special notice on the *Portale dello Studente* homepage (<http://portalestudente.uniroma3.it>).

### Registration to the *Portale dello Studente* (Student Portal)

In order to gain access to all procedures described in this call, candidates must register to the *Portale dello Studente* through the link <http://portalestudente.uniroma3.it>. Once inside the Portale, they must click on **Servizi on-line** from the menu on the left and then **Accedi ai servizi on-line** → **Registrati**.

Once the registration is completed, the system assigns the **Roma3Pass** account, with a User Id and a Password. This account gives access to the personal area of the *Portale dello Studente* and to all Roma Tre online services. Procedures for the recovery of Roma3Pass credentials available at [http://portalestudente.uniroma3.it/index.php?p=cambio\\_password](http://portalestudente.uniroma3.it/index.php?p=cambio_password).

Assistance for problems with online procedures is available at [http://portalestudente.uniroma3.it/index.php?p=assistenza\\_on-l](http://portalestudente.uniroma3.it/index.php?p=assistenza_on-l).

## Art. 2 - Places available to non-UE citizens residing abroad

---

This degree course admits **40** non-UE citizens, distributed as follows:

- ▶ Extra-UE citizens residing abroad: **20**
- ▶ Chinese citizens within the Marco Polo Programme: **20**

## Art. 3 - Candidates with foreign qualifications

---

Candidates with foreign qualifications must refer to the "Guida "How to Apply" *Studenti con Titolo estero* A.A. 2017-2018", published on the *Portale dello Studente*. Their admission and enrollment is managed by the Office for Students with Foreign Qualifications (*Ufficio Studenti con Titolo Estero*), whose contacts are indicated at article 12 of this announcement.

### Extra-Ue citizens residing abroad

Extra-UE citizens residing abroad must refer to the national admission rules for foreign students published on <http://www.studiare-in-italia.it/studentistranieri/>

Article 4 describes the language skills requested.

## Art. 4 - Admission requirements

---

### Degrees:

- first cycle degree/bachelor's degree
- second cycle degree/master's degree
- diploma di laurea/master's degree awarded within degree courses in force before the university system reform established with Ministerial Decree 509/1999
- any equivalent foreign qualifications achieved at legally recognized institutions.

### Skills

Candidates must:

- ▶ Know methods and operational aspects of information and industrial engineering basics, core and related sciences (class L-8 in Ministerial Decree 270/04 and class 9 in Ministerial Decree 509/99 of first cycle degrees in Information Engineering; class L-9 in Ministerial Decree 270/04 and class 10 in Ministerial Decree 509/99 of first cycle degrees in Industrial Engineering);
- ▶ Be fluent in the English language, spoken and written. Candidates must have at least a B1 Common European Framework (CEF) level of English. Level can be certified by pass/fail exams passed at Roma Tre or by one of the following certificates, with the level/grade specified or above:
  - CAMBRIDGE ENGLISH LANGUAGE ASSESSMENT: Preliminary (PET)
  - IELTS (4,5)
  - TOEFL:
    - paper based test: 513
    - computer based test: 183
    - internet based test: 65
    - TSE: 30
  - TRINITY COLLEGE LONDON: Integrated Skills in English examinations (ISE) Level II (ISE II)
  - UNIVERSITY OF OXFORD: Oxford Test of English Level B1

No extra credits are required to graduates in Information and Industrial Engineering classes of first level degrees, as well as to any graduates having the minimum requirements stated in Ministerial Decrees 4 August 2000 and 16 March 2007, nr. 157 for Information and Industrial classes of first level degrees.

In order to fulfill the educational goals planned by the Biomedical Engineering master's degree course educational path, graduates in the above-mentioned classes possibly lacking the above mentioned skills are obliged to follow a personal study plan.

First cycle graduates in classes other than Information or Industrial Engineering may be asked to acquire specific skills upon individual evaluation based on the academic curriculum and/or an interview. Candidates lacking English B1 level certification at the date of application must obtain it before registering for any class exam.

The degree course regulations (*Regolamento Didattico*), available on the Department of Engineering website [http://ingegneria.uniroma3.it/?page\\_id=247](http://ingegneria.uniroma3.it/?page_id=247), specify any details on curricular requirements. It is important to read carefully such regulations before applying. The same regulations state the curricular requirements needed by candidates transferring from other Italian universities (*trasferimento*), transferring from other Roma Tre degree courses (*passaggio*) or asking the shortening of the degree programme through the recognition of previous degrees (*abbreviazione di carriera*).

### Who can apply:

- Graduates with one of the above mentioned qualifications;
- Undergraduates enrolled in a first cycle degree course at Roma Tre or other university who expect to graduate within **March 2018**.

## Art. 5 - Application

---

The application is online and compulsory for all candidates. It must be submitted from **26 June to 15 September 2017** from the personal area of the *Portale dello Studente* using the same User ID and password assigned.

1<sup>st</sup> cycle graduates from other universities than Roma Tre must upload the list of the exams taken within their previous university career (indicating for each of them scientific disciplinary sector, name of the subject, date of the exam and credits earned) and give information on secondary school diploma and previous university degree.

### **Incomplete applications will not be processed.**

Candidates are recommended to verify that the online procedure is fully completed, as this is the **ONLY** admission procedure to master's degree courses.

### **Late application period**

The application is also open from **16 September** under the same procedures described above. Late application is charged with extra 60 euros.  
No more applications are allowed after 03 April 2018.

## **Art. 6 - Admission results**

---

Candidates can check the application results through their personal page on the *Portale dello Studente* within **5 october 2018** for applications presented until 15 September. Late applications result will be published later.

The Electronic Engineering Academic Office will send an e-mail to the candidate at the address indicated in the registration procedure.

“Admitted” candidates can immediately enroll. “Conditionally admitted” candidates (undergraduates or those with some specific curricular requirements to fulfill) will find detailed academic information at the Electronic Engineering Academic Office. Candidates who do not meet eligibility requirements will result as “Not admitted”.

Conditionally admitted candidates must fulfill any curricular requirements indicated by the Department by taking and passing single course units. The Department will provide the list of the relevant course units. Information on procedures and deadlines for the enrollment to single course units are available on the *Portale dello Studente*. Roma Tre will deduct single course units fees from first year university fees (see the *Regolamento Tasse Studenti* on the *Portale dello Studente*).

## **Art. 7 - Enrollment**

---

### **a) Graduates**

*Enrollment deadline:* From **5 October to 12.00 a.m. of 16 October 2017**

*Late applications enrollment period:* from the publication of the results in the *Portale dello Studente*.

Admitted candidates who did not enroll within the prescribed deadlines, but still wish to enroll, can do it through their personal page of the *Portale dello Studente*. The enrollment deadline is **03 April 2018**. Late enrollment is charged with extra **60 euros**.

### **b) Conditionally admitted**

*With some specific curricular requirements to fulfill*

*Enrollment deadline:* After the successful completion of single courses units until **12.00 a.m. of 03 April 2018**.

In order to gain access to the enrollment procedure, candidates must notify passed examinations to the Electronic Engineering Academic Office.

### *Undergraduates*

*Enrollment deadline:* After graduation, until **12.00 a.m. of 03 April 2018**.

### *Notice*

Conditionally admitted candidates can attend classes, but they cannot take exams until they enroll in the master's degree course.

In order to enroll, admitted candidates must follow the online procedure and pay the first instalment within the above-mentioned deadlines. **The enrollment is effective only upon payment of the first instalment.**

The enrollment procedure requires to: a) fill in the online application form; b) list any eligible fee exemption; c) print the first instalment payment form.

Within **5 December 2017 – or 2 May 2018** if conditionally admitted - **graduates from other universities** than Roma Tre must also upload online through their personal page on the *Portale dello Studente* the following documents:

1. Undersigned application form;
2. A passport-size photo;
3. A valid identification document (v. art. 7, nota 1).

### *Notice*

Students with foreign qualifications must hand in the enrollment form to the Office for Students with Foreign Qualifications (*Ufficio Studenti con Titolo Estero*), whose contacts are indicated at article 15 of this announcement.

***Graduates from Roma Tre must not upload the above listed documents.***

## **Art. 8 – Transfer, change of study programme, recognition of previous qualification (shortened programme)**

---

Candidates transferring from other universities, from other Roma Tre degree courses or graduates asking for the recognition of a previous same level degree who apply for the shortened programme may ask to enroll in the second year. The relevant academic board evaluates applications on the basis of the requirements stated in the degree course regulations.

### **Transferring from other Italian universities**

The online application is open from **26 June to 15 September 2017** on the personal page of the *Portale dello Studente* using the same User ID and password assigned.

Students must fill in all information on high school diploma and current studies at university of origin, such as enrollment year, total years in current degree course, passed exams (scientific-disciplinary sector, name of the exam, exam date, grade and credits).

### *Please note*

1<sup>st</sup> cycle graduates from other universities than Roma Tre must also upload the list of the exams taken within their previous university career (indicating for each of them scientific disciplinary sector, name of the subject, date of the exam and credits earned) plus the related course content.

## **Incomplete applications will not be processed.**

Evaluation results are published online in the personal page of the Portale dello Studente as already described at the Art. 6.

The degree course recognizes as many credits as possible, even through interviews. If the degree class of origin is the same, it will recognize at least 50% or the total credits related to a single scientific disciplinary sector. The number of recognized university credits (CFU) depends on the content of previous studies, related to the master's degree course educational goals. Examinations and activities taken in European higher education institutions will be recognized according to the European Credit Transfer System (ECTS), the rules and the grades conversion table of the *Regolamento carriera universitaria degli studenti* published on the Portale dello Studente.

Enrollment at Roma Tre must follow the transferring request at university of origin and it is effective upon payment of the first instalment within **16 October 2017**.

Payment forms and enrollment form are available in the personal page of the *Portale dello Studente*. The enrollment form and the attachments listed at article 7 must be submitted as indicated at same article 7 within the deadline of **5 December 2017**.

### **Notice**

Students who enroll at Roma Tre not having requested transferring at their university of origin incur the contemporary enrollment prohibition and their latest enrollment is nullified (Art. 142 T.U. R.D. 31/08/1933 n. 1592; art. 2 *Regolamento carriera universitaria degli studenti* - Regulations on student university career).

## **Changing master's degree course within Roma Tre**

The online application for the evaluation of previous studies is open from **26 June to 15 September 2017** on the personal page of the Portale dello Studente.

### **Please note**

Before applying for the evaluation of previous studies, candidates are invited to check their career from the personal area of the *Portale dello Studente*, paying attention to payments due and the complete registration of the exams taken.

Candidates must notify any discrepancies by the trouble ticketing service available at <http://portalestudente.uniroma3.it/index.php?p=ticket>

Evaluation results are published online in the personal page of the Portale dello Studente as already described at the Art. 6.

Admitted candidates must:

- Enroll to the degree course of origin for the academic year 2017-2018 paying the first instalment of fees;
- After the enrollment, apply for the changing of degree course from the personal area of the Portale dello Studente, selecting the chosen degree course.
- Pay the amount charged on their personal area at the end of the application for the changing of degree course.

### **Notice**

Due to regulatory changes on student taxes introduced by Law 11 December 2016, nr. 232, "Budget Law 2017", students must calculate the ISEE (*Indicatore della Situazione Economica Equivalente*) within **15 September 2017** in order to enroll and pay the first instalment on the basis of the proper tax bracket.

They can calculate the ISEE when applying for the evaluation of previous studies, and then they will authorize Roma Tre to acquire the ISEE from the INPS database when enrolling.

Applicants must possess admission requirements at the time of application. In order to complete the application, they must communicate to the degree course Academic Office any further exams taken after the application.

### **Shortened programme following the recognition of a previous master's degree or equivalent**

Graduates in a second cycle/master's degree course or in second cycle master's degree courses in force before Ministerial Decree 509/1999 or foreign equivalent degrees, who intend to apply for the shortened degree programme, must follow the same procedures indicated at articles 5, 6 and 7 of the present call.

To obtain the recognition of previous studies the candidate must also submit the online application through the personal area of Portale dello Studente from the **26 June** to **15 September 2017**.

Candidates must fill in all information on qualifications obtained, passed exams (scientific-disciplinary sector, name of the exam, exam date, grade and credits) and high school diploma.

The degree course recognizes as many credits obtained in class degrees different from the present class as possible, even through interviews. The number of recognized university credits (CFU) depends on the content of previous studies, related to the master's degree course educational goals.

Evaluation results are published online in the personal page of the Portale dello Studente as already described at the Art. 6.

#### *Please note*

When applying, candidates must upload online all programmes related to the exams taken within the previous career.

### **Late applications**

The application is also open from **16 September** under the same procedure described above. Late application is charged with extra **60 euros**.

**No applications allowed after 03 April 2018.**

Evaluation results are published online in the personal page of the Portale dello Studente as already described at the Art. 6

## **Art. 9. Part-time students**

---

Students may ask for part-time enrollment in accordance to the *Regolamento carriera universitaria degli studenti*, published at [http://portalestudente.uniroma3.it/index.php?p=guide\\_e\\_regolam](http://portalestudente.uniroma3.it/index.php?p=guide_e_regolam).

## **Art. 10. Tuition fees**

---

The *Regolamento Tasse Studenti* (Regulations on tuition fees) contains all rules on university tuition fees. It is published on the *Portale dello Studente* website.

#### *Please note*

Due to regulatory changes on student taxes introduced by Law 11 December 2016, nr. 232, "Budget Law 2017", students must calculate the ISEE (*Indicatore della Situazione Economica Equivalente*) in order to pay the first instalment on the basis of the proper tax bracket.

They can calculate the ISEE when applying, and then they will authorize Roma Tre to acquire the ISEE from the INPS database when enrolling.

Students who do not calculate their ISEE are automatically placed in the maximum tax bracket.

### *Please note*

No payment from different Banks than UNICREDIT (or other banks, if any, indicated by the university) is allowed, neither through bank transfer nor at Post Offices. Online payment through credit card is also available (<http://portalestudente.uniroma3.it/index.php?p=istruzioni>).

In order to pay within the final deadline, please consider bank agencies opening time - including online payment services - as well as the Students' Front Office opening hours for any problems arising during the enrollment procedure.

The University is going to adhere to Pago PA, a new system of payment established by the *Agenzia per l'Italia Digitale* for all public administration. Any changes of payment methods will be promptly published on the Portale dello Studente and through the Area Studenti social networks profiles

## **Art. 11. Study grants, housing, university canteens and other subsidies**

---

**Scholarships for students enrolled in the Electronic Engineering degree courses:** 6 scholarships of 1.000,00 euros each available for students enrolled at the first year in one of the following Laurea Magistrale degree courses:

- Bioingegneria – Biomedical Engineering;
- Ingegneria delle tecnologie della comunicazione e dell'informazione;
- Ingegneria elettronica per l'industria e l'innovazione.

Requirements: qualification graduation mark in the first level degree course equal to or greater than 105/110. If more than 6 candidates possess the requirement indicated, scholarships will be awarded through a merit ranking, based on the graduation mark and the duration of studies in the first level degree course. All details are published on the Electronic Engineering website at <http://ccs.ele.uniroma3.it>

The regional authority for the right to higher education *Laziodisu – Adisu. Roma Tre* publishes a call for various subsidies, such as study grants, housing, international mobility grants and degree awards. The call is published each year on the [Adisu.Roma Tre](http://www.laziodisu.it/) website, also reachable from the Laziodisu homepage <http://www.laziodisu.it/>.

Apart from subsidies comprised in the yearly call, *Adisu.Roma Tre* offers university canteens and other student services as described on its website.

## **Art. 12 - Institutional e-mail**

---

Roma Tre gives each student an e-mail box (nom.cognome@stud.uniroma3.it) working with the *Portale dello Studente* account. Offices use only this e-mail address to send any personal notice, such as the registration of examinations. Instruction to gain access to the e-mail box after the enrollment are available at <http://portalestudente.uniroma3.it/mail/>.

## **Art. 13-Informative report according to art. 13 of Legislative Decree 30/06/2003 n. 196**

---

### **1. Objective of data handling.**

Personal data supplied by candidates are collected for the management of the admission procedure to the master's degree course, respecting the principles of correctness, legality, transparency and privacy protection, also with regards to the calculation of the admission test score, if any. Admission tests are ruled by article 4, paragraph 1 of Law 2 August 1999, n. 264 on admission to university degree courses. The same law establishes at article 2, paragraph 1, subparagraph a) which degree courses are subject to the planning of enrollments.

## **2. Handling modalities and interested parties.**

Personal data supplied by the candidates, even through the online registration to the admission test, will be handled through a computerized procedure by Università degli Studi Roma Tre and the contracting company for the management of admission tests, if any.

Personal data of the candidates will be handled by Università degli Studi Roma Tre staff in their capacity of charged data handlers, with the following modalities:

- Registration and processing on paper and electronic device;
- Data storage through automatic and/or manual instruments;
- Publication of selection results according to the modalities indicated in this announcement.

Data may be shared with the Ministry of Education, University and Research for obligations related to the Student National Registry (Anagrafe Nazionale Studenti) and for periodic and compulsory statistical surveys. They may also be shared with other public administrations for institutional statistical objectives or for any law obligations.

## **3. Characteristics of personal data supply and consequences of possible refusal.**

Personal data must be compulsory supplied in order to participate to the admission tests, if any, and to enroll in the degree courses.

Candidates who do not supply personal data are excluded from those procedures.

Data on personal health condition may be voluntarily supplied. They are collected only to properly organize the admission test and in order to guarantee equal opportunities to candidates, according to the legislation in force on disabled people (Law 104/1992).

## **4. Owner of personal data handling:**

Università degli Studi Roma Tre.

## **5. Responsible for data handling**

For Università degli Studi Roma Tre:

- a) Head of the Students Office;
- b) Staff of Students Office, Information System Office and Department Secretary's Office charged of data handling.

## **6. Rights of the parties involved established by art. 7 of Legislative Decree 196/2003:**

(Right of access to personal data and other rights)

The party involved has the right to be confirmed of the existence of personal supplied data, even if they are not registered yet, as well as to be clearly informed.

The party involved has the right to know:

- a) the source of personal data;
- b) the objectives and modalities of data handling;
- c) the logic applied in case of electronic data handling;
- d) the essential elements to identify the data handling owner, responsible and delegate according to art. 5, paragraph 2;
- e) subjects who can share personal data upon communication or sharing as delegates, responsible or charged of data handling.

The party involved has the right to obtain:

- a) the updating, correction or integration of data;
- b) the cancellation, transformation in anonymous form or blockage of data handled in violation of law, including those which do not need to be conserved according to the objectives of their supply and further handling;
- c) the statement that operations indicated in subparagraphs a) and b) have been brought to knowledge to those who shared data, excluding when this accomplishment is impossible or requires an excessive effort in comparison with the protected rights.

The party involved has the right to oppose to personal data handling completely or partly:

- a) for legitimate reasons;

b) when regarding the sending of advertising materials or direct selling or market research or commercial communication.

## **Art. 14 - Responsible for the administrative procedure**

---

According to Law 7 August 1990 n. 241, the Responsible for the administrative procedure is Ms. Roberta Evangelista, Head of Students Office.

Ms. Stefania Maello, Head of the Engineering Students Office, looks after the procedure.

## **Art. 15. Contacts**
