Application outcome

Publication of the application outcome is the responsibility of each Department. At the same time as the online publication, an email will also be sent to the applicants.

The outcome of the evaluation may be:

- a) Admitted: in this case, you may proceed immediately to enroll;
- b) Not admitted due to lack of requirements;
- c) Admitted under condition pending graduation, or missing curricular requirements.

For types b) and c), more detailed information can be obtained from the relevant department at contacts indicated in the annex to the call for applications.

Any missing curricular requirements must be acquired prior to enrollment by registration in single courses recognized as pertinent by the Department and passing the relevant examinations. Information on procedures and deadlines for enrolling in individual teachings is available in the Portale dello Studente. The cost incurred for enrolling in individual courses will be deducted from the amount of fees due for the first year of enrollment in the master's degree program (see Fee Regulations - [Regolamento Tasse](#)).

Enrollment

The enrollment procedure is carried out online according to the schedule indicated in the attachments to the call for applications and in the table "Schedule" of this adapted version in English. It is considered completed

only with the payment of the first installment of fees by the deadlines indicated in the attachments to the call for applications and in the table "Schedule" of this adapted version in English.

Please Note

Students admitted under condition can already attend classes in the Master's degree course, but will be only be able to take examinations after completing the enrollment.

To complete the enrollment, students who graduated with a bachelor's degree from other universities must upload the following documents online, or their enrollment procedure will be blocked:

1. scanned copy of the signed application form;
2. passport size photo;
3. scanned copy of a valid identity document;
4. if holders of a foreign qualification, relevant documentation required by the [Regolamento per l'ammissione ai corsi universitari con titolo estero e per il riconoscimento dei titoli esteri](#);

Fees

All fee regulations are contained in the [Regolamento Tasse](#) published on the Portale dello Studente.

As a result of the legislative changes on student fees introduced by Law 11 December 2016, no. 232, "Budget Law 2017", in order to calculate the first installment of fees, it is necessary to submit the ISEE declaration for university benefits. The declaration can be submitted as early as January 15, 2022. At the time of registration for the test assessment of basic knowledge or enrollment or renewal of enrollment you must authorize the University to acquire the declaration from the INPS database. Failure to submit the declaration will result in automatic classification in the highest bracket.

Tuition payments are made through the "PagoPA" method. PagoPA bills can be paid through the [app IO](#), online with a credit card or at the over 350 Payment Service Providers (PSPs) participating in PagoPA. The complete and updated list of PSPs is published on the AGID website: <https://www.pagopa.gov.it/it/dove-pagare/>.

Scholarships, housing, canteens and other services
